Connect Twitter

Connect Twitter

1. User clicks on button to start OAuth Flow

OAuth

1. Clicking on button opens a new tab and takes user there.
2. OAuth will be different for each service but be sure to state what iPaaS will be doing.
3. Buttons to either Authorize app or Cancel. Both buttons will close tab and bring user back to iPaaS
4. iPaaS logo and app information when applicable

« Dashboard > Connections > Create a connection

Cancel   ‹ Back   Next ›

Choose Connector   Connect Service   Name Connection
        (1) ─────────────────────── (2) ─────────────────────── (3)
